WE CONDEMN THE RACIST MASSACRE IN HANAU!

An armed attack was carried out on two hookah cafes where migrant and refugee youths went to in Hanau, in the state of Hessen, Germany, on Wednesday evening, February 19, at 22:00. In the attacks, of different nationalities died 9 people while a large number of people, one of them a women, were injured. According to the information given by the press, those youths who lost their lives has their origins from Kurdistan, Turkey, Poland, Romania and Bosnia... After the incident, the police found the suspect and his 76-year-old mother as dead in the raid on the house of the person whom they had identified as the suspect. In the letter left by the suspect, it was noted that "It is now too late to drive out some peoples in Germany, therefore it is necessary to destroy them".

Although the right-fascist parties have been organized openly and secretly for many years in Germany, the state has never touched them. It was reflected in the press that these fascist gangs were preparing to attack migrants and politicians who defend the rights of immigrants and worked for the X day. It was known that they were in preparation for armed uprising for the day X, the day when they would take the power. Finally, this was clearly evident in the Synagogue attack in Halle. This have also been proven once again in recent house raids and in the seized documents of the Combat 18 organization. There have been hundreds of attacks by rightists against immigrants in Germany in recent years. Many of these were reflected as individual events and covered.

The Racist Massacre in Hanau is not an Individual Incident, the Responsible is the German State;

With the attack reflected in the press, German State officials were already starting to shed crocodile tears... However, we are aware that this attack is not an isolated incident and that the German State is responsible for it. It was among the news that the right-wing, racist organizations rising in Europe were fed by the states themselves, led by Germany, where the Nazis were in the German police force and even threatening letters to judges and lawyers who deal with such assault cases... It wasn't too long after the attack on the Synagogue in Halle in Germany and the murder of the politician in Kasel.

The spread of racist, fascist policies is often the method used by states to divide and suppress social opposition that formes from attacks and social discontent against democratic rights. Especially, the exposition of immigrant refugees from the press is one of the important reasons for this. There's been trying to form a public opinion that migrant refugees should be sent back to their countries of origin in a long time. Today, with the continuous changes made in immigrant and refugee laws in Germany, right-wing, racist organizations and institutions, which are fed through rightist, racist, discriminatory policies against refugees, are today fed by the German state like it was as their history. Therefore, the German State is responsible for this massacre.

We Will Not Silence, We Are Not Quiet!

As ATİK, we are not keeping quiet once again about the massacre, we invite all anti-fascists, anti-capitalists to the streets, to raise their voices in order to grow their class brotherhood and solidarity, to stay up against the rising footsteps of fascism and racism. In addition, we share the pain of those who lost their lives in the massacre, and wish the wounded people to get well soon!

No to racism, fascism and all kinds of reactionary!

Racist-fascist parties should be banned!
